KNX - Line coupler DIN

REF. 002898 | EAN KODA. 3414972968454

KNX line coupler able to filter the traffic according to the installation place in the bus system hierarchy or according to the built in filter tables for group oriented communication

> [The product details page](#)

Splošni opis:

KNX line coupler able to filter the traffic according to the installation place in the bus system hierarchy or according to the built in filter tables for group oriented communication

Značilnosti izdelka:

- Usable as a line coupler, backbone coupler, or repeater.
- Filtering bus telegrams to reduce bus load.
- Galvanic isolation between connected lines.
- Support for messages up to 250 bytes.
- 6-duo LED display to indicate bus status.

Priporočila / omejitve

- Configuration through ETS tool from KNX association.

Prednosti montaže:

- The coupler can be programmed with ETS software from version ETS5.

Prednosti uporabe:

- Configurable one-button activation for special functions, e.g. transmit all group telegrams (useful during commissioning, automatic reset after a dedicated time)

Edinstvene značilnosti:

- Can be used in different roles (line coupler, backbone, repeater) with the same hardware, as there are no differences in the hardware.
- Capability to handle long messages up to 250 bytes in length.
- 6-duo LED display for better network monitoring and diagnostics.
