LEGRAND

KNX line coupler din

REF. 003546 | EAN KODA. 3414972052429

> [The product details page](#)

Značilnosti izdelka:

- DIN 2 modules
- Power supply from KNX bus (10mA)
- Bus status (traffic, errors, filter) information with 6 LEDs

Priporočila / omejitve

- Configuration through ETS tool from KNX association

Prednosti montaže:

- Connected with the BUS/KNX cable & can be configured as line repeater for extending KNX lines above standard limits

Prednosti uporabe:

- Configurable one-button activation for special functions, e.g. transmit all group telegrams (useful during commissioning, automatic reset after a dedicated time)

Edinstvene značilnosti:

- Because a broad range of KNX devices communicate with each other, (even if they are from different manufacturer) KNX technology answers to high demands for smart home or building thanks to endless flexibility and personalization
- Support of long telegrams
- Configurable "Manual Function" that can be activated by a single button press
