LEGRAND

KNX DALI gateway din 64 ballasts

REF. 002699 | EAN KODA. 3414972052382

> [The product details page](#)

Značilnosti izdelka:

- 1 output DALI bus (64 DALI devices max)
- DIN 4 modules
- Mains voltage 110/230VAC - 50/60Hz
- Power supply from KNX bus (10mA)
- Individual control DALI loads (64 max) & 16 lighting scenes

Priporočila / omejitve

- Configuration through ETS tool from KNX association and dedicated DALI Commissioning Tool for DALI operations (addressing, grouping etc.)

Prednosti montaže:

- Connected with the BUS/KNX cable

Prednosti uporabe:

- Monitoring Fault status of DALI devices using different KNX group objects

Edinstvene značilnosti:

- Possibility to support up to 8 DALI sensors for internal corridor and constant light level control on DALI groups transmitting current presence statuses and measured brightness values on the KNX bus
- Functional and battery life tests for DALI compliant emergency lighting fixtures to be sent through KNX
